ADITYA UNIVERSITY

DEPARTMENT OF COMPUTER APPLICATIONS

CERTIFICATE

This is to certify that the internship report entitled **Web Development/Java script** is being submitted by **Kola Sai Keerthi – 25M11MC069** in partial fulfillment of the requirements for the award of the degree of **Master of Computer Applications** in the **Department of Computer Applications** for the academic year **2026–2027**. This report is based on the internship carried out at **ExcelR Edtech Pvt. Ltd**, and it reflects the student's own work, conducted under our guidance and supervision.

Guide/Supervisor Name

K. Sai Kishore

Assistant Professor

Head of the Department

Dr. Ramesh N S V S C Sripada

Associate Professor & HOD

DECLARATION

I hereby declare that the internship report entitled **Web Development/Java script** is a genuine and original work submitted to **Aditya University, Surampalem**, in partial fulfillment of the requirements for the award of the **Master of Computer Applications (MCA)** degree.

I further declare that this report has not been submitted, either in full or in part, for the award of any degree or diploma at this or any other educational institution.

Kola Sai Keerthi

(25M11MC069)

INTERNSHIP CERTIFICATE

ANDHRA PRADESH STATE COUNCIL OF HIGHER EDUCATION

(A Statutory Body of Government of A.P.)

Certificate of Completion

This is to certify that

Kola Sai Keerthi - MCA - 25M11MC069 of

Aditya University has successfully completed Short -Term Internship on

Web Development / Java script

Organized by ExcelR Edtech Pvt. Ltd. in collaboration with Andhra Pradesh State Council of Higher Education

From 16 May 2026 to 30 June 2026

Certificate No: EXCELR-I- 89793

No. of Credits: 3

Presented on 30 June 2026

Ram Tavva

CEO,

ExcelR EdTech Pvt. Ltd.

ACKNOWLEDGEMENT

First and foremost, I would like to express my sincere gratitude to the Director of **ExcelR Edtech Pvt. Ltd, Mr. G. Srinivas Reddy**, for providing me the opportunity to undertake my internship within the organization. I am also thankful to all the team members at **ExcelR Edtech Pvt. Ltd**, for their patience, cooperation, and the friendly work environment they created, which made the experience truly enjoyable.

It is with immense pleasure that I express my sincere thanks to **Mr. Agni Tanmaya Behera**, Assistant Professor and Internship Coordinator, for coordinating the internship process and facilitating the smooth submission and evaluation of reports.

I am deeply grateful to **Dr. Ramesh N S V S C Sripada**, Head of the Department (Computer Applications), for his motivation, support, and for arranging all the necessary facilities and resources for the smooth execution of my internship project.

I also wish to extend my sincere thanks to **Dr. P. Rajamohan**, Assistant Professor, my project guide, for their encouragement, valuable feedback, and consistent support throughout my internship.

I am thankful to the respected leadership of Aditya University for their unconditional support and for providing world-class infrastructure and state-of-the-art laboratories. My sincere thanks to:

- **Dr. N Satish Reddy**, Pro-Chancellor
- **Dr. M Sreenivasa Reddy**, Dy. Pro-Chancellor
- **Dr. M. B. Srinivas**, Vice Chancellor
- **Dr. S Rama Sree**, Pro Vice-Chancellor (Academics)
- **Dr. A Ramesh**, Pro Vice-Chancellor (Engineering & Sciences)
- **Dr. G Suresh**, Registrar
- **Dr. M V Rajesh**, Associate Dean (School of Computing)

Lastly, I would like to thank all the **faculty members, lab technicians, non-teaching staff**, and my **friends** who directly or indirectly helped and supported me in successfully completing my internship project on time.

ABOUT ORGANIZATION

About Organization:

ExcelR Edtech Pvt Ltd is a global leader in upskilling and reskilling professionals through innovative and practical training programs. Established under the Companies Act, ExcelR offers a wide range of learning solutions in emerging technologies and professional domains.

The organization provides value-driven educational services in areas such as Data Science, Cloud Computing, Web Development using Django, Digital Marketing, Business Analysis, and more. ExcelR is committed to equipping learners with real-world skills through hands-on training, industry-based projects, and expert mentorship.

The company collaborates with universities, corporates, and government bodies to expand access to quality training and career development. Their internship programs bridge the gap between academic learning and industry expectations, allowing interns to work on live projects, including developing web applications using modern frameworks like Django.

Mission and Vision

Mission

Delivery of valuable and genuine learning services to individuals. ExcelR aims to provide access to top-notch education and skill-based training programs such as **Web Development using Django** for learners in urban and rural areas. The organization strives to empower professionals, students, and job seekers through quality education and to bridge the gap between academic knowledge and industry requirements.

Vision

Exceler aims to become a globally acclaimed educational and upskilling services organization.

It focuses on providing quality, innovative, and industry-relevant learning opportunities.

Exceler strives to bridge the gap between academic knowledge and real-world industry skills.

It empowers students and professionals to build successful careers and become future-ready

KEY INITIATIVES

During the internship at **ExcelR Edtech Pvt. Ltd.**, the organization focused on providing practical exposure to Web Development through structured training and project-based learning. The internship emphasized HTML, CSS, and JavaScript for developing responsive and interactive web applications. Interns gained hands-on experience in webpage design, DOM manipulation, event handling, JavaScript programming, and interactive user interfaces. The organization also encouraged coding practice, project demonstrations, mentor guidance, and regular progress reporting. The internship helped bridge the gap between academic knowledge and industry requirements while improving technical and professional skills.

Recognition and Impact

The internship was successfully completed in the **Web Development / JavaScript** domain. It provided valuable practical experience in developing structured, responsive, and interactive web applications. Completing assignments and projects improved my coding, problem-solving, documentation, and project development skills. The internship also enhanced my understanding of professional workflows, teamwork, and the importance of continuous learning in the software industry.

Leadership

The internship encouraged me to take responsibility for completing assigned tasks and managing project activities within deadlines. I demonstrated initiative by solving technical challenges, participating in discussions, documenting project work, and submitting tasks on time. Working with mentors and team members improved my communication, teamwork, time management, and decision-making skills. The experience strengthened my ability to work independently and collaboratively in a professional environment.

OVERVIEW

OVERVIEW

I completed an internship at **ExcelR Edtech Pvt. Ltd.** in the Web Development and JavaScript domain. During this internship, I gained hands-on experience in developing responsive and interactive web applications using HTML, CSS, and JavaScript. My work involved webpage design, styling, JavaScript programming, DOM manipulation, event handling, and project development. The internship provided practical exposure to front-end development and improved my technical, problem-solving, and professional skills.

KEY PROJECT: Personal Finance Dashboard

The **Personal Finance Dashboard** was developed to help users manage and monitor their personal finances in an organized manner. The project allows users to record income and expenses, categorize transactions, track their balance, set savings goals, and view financial information through an interactive dashboard. HTML and CSS were used to create the user interface, while JavaScript was used to implement the application logic, transaction management, calculations, and interactive features. The project enhanced my understanding of front-end development, JavaScript, data handling, user interface design, and practical problem-solving.

ABSTRACT

The internship at **ExcelR Edtech Pvt. Ltd.** provided practical exposure to Web Development and JavaScript through project-based learning. As part of the internship, I developed a **Personal Finance Dashboard** using HTML, CSS, and JavaScript to help users manage and monitor their personal finances efficiently. The application enables users to record income and expenses, categorize transactions, calculate balance, set savings goals, and view financial information through an interactive dashboard. JavaScript was used to implement dynamic functionality, transaction management, calculations, and user interactions. The project provided hands-on experience in front-end development, DOM manipulation, data handling, responsive user interface design, and problem-solving. Overall, the internship strengthened my technical knowledge and improved my ability to apply web development concepts in a practical real-world project.

WEEK 1 REPORT

1st Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	16-05-2026	1	Introduction to HTML elements
	18-05-2026	2	Working with Lists (ul, ol, li)
	19-05-2026	3	Creating Tables in HTML
	20-05-2026	4	HTML Forms and Input Elements
	21-05-2026	5	HTML5 Semantic Tags
	22-05-2026	6	HTML Project: Resume Page Apply HTML to create a basic structured resume

Overview:

The first week focused on the fundamentals of HTML and webpage structure. I learned about HTML elements, lists, tables, forms, input elements, and HTML5 semantic tags. I also applied these concepts by creating a basic resume page using HTML.

Conclusion:

This week helped me understand the basic structure and components of HTML. Creating a resume page improved my practical knowledge of HTML elements and provided a strong foundation for learning CSS and JavaScript.

WEEK 2 REPORT

2nd Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	23-05-2026	1	Understand CSS syntax and how it styles HTML
	25-05-2026	2	Apply background color and internal CSS
	26-05-2026	3	Learn and use element, class, and ID selectors
	27-05-2026	4	Apply font-size, font-family, color, alignment.
	28-05-2026	5	Style borders and tables using CSS
	29-05-2026	6	Style a form layout using CSS

Overview:

The second week focused on the fundamentals of CSS and its use in styling HTML pages. I learned CSS syntax, backgrounds, selectors, fonts, colors, alignment, borders, and tables. I also practiced designing and styling a form layout using CSS.

Conclusion:

This week improved my understanding of CSS styling and webpage design. Practicing selectors, fonts, colors, borders, tables, and forms helped me create better-structured and visually appealing web pages.

WEEK 3 REPORT

3rd Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	30-06-2026	1	Flexbox Basics: Understand flex container and items
	01-06-2026	2	Build responsive layouts using flex
	02-06-2026	3	Understand CSS Grid structure
	03-06-2026	4	Use :hover, :before, :after effectively
	04-06-2026	5	Create simple animations using @keyframes
	05-06-2026	6	Build a responsive webpage with layout systems

Overview:

The third week focused on CSS layout and design techniques, including Flexbox, CSS Grid, pseudo-classes, pseudo-elements, and animations. I learned how to create responsive layouts and improve the appearance and interactivity of web pages. I also practiced building a responsive webpage using different CSS layout systems.

Conclusion:

This week improved my understanding of responsive web design and CSS styling. Practicing Flexbox, Grid, hover effects, and animations helped me create more attractive and user-friendly web pages.

WEEK 4 REPORT

4th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	06-06-2026	1	Understand JS usage and setup
	08-06-2026	2	Learn about string, number, boolean, object, etc.
	09-06-2026	3	Variables and Dynamic Typing
	10-06-2026	4	Apply decision making using conditions
	11-06-2026	5	Use loops to iterate through data
	12-06-2026	6	Solve basic logic-based problems in JS

Overview:

The fourth week focused on JavaScript fundamentals, including JavaScript setup, data types, variables, dynamic typing, conditional statements, and loops. I also practiced solving basic logic-based problems using JavaScript. These concepts helped me build a strong foundation in programming and prepare for developing interactive web applications.

Conclusion:

This week strengthened my understanding of JavaScript basics, including data types, variables, conditions, and loops. Practicing these concepts through basic logic-based problems improved my programming skills and logical thinking.

WEEK 5 REPORT

5th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	13-06-2026	1	Arrays and Array Methods
	15-06-2026	2	Introduction to Events
	16-06-2026	3	DOM Introduction
	17-06-2026	4	DOM Methods and Traversal
	18-06-2026	5	Mini Project: Interactive Form
	19-06-2026	6	Quiz & Revision: Revise and test JS fundamentals

Overview:

The fifth week focused on JavaScript arrays, array methods, events, and DOM manipulation. I learned how to work with arrays, handle user events, and use DOM methods to create interactive web pages. I also developed a mini interactive form and revised the JavaScript concepts through a quiz.

Conclusion:

This week improved my understanding of JavaScript fundamentals and interactive web development. The practical activities helped me strengthen my programming, problem-solving, and DOM manipulation skills, which were useful for developing my Personal Finance Dashboard.

WEEK 6 REPORT

6th Week	DATE	DAY	NAME OF THE TOPIC / MODULE COMPLETED
	20-06-2026	1	Project Review
	22-06-2026	2	Testing and Debugging
	23-06-2026	3	Final Project Development
	24-06-2026	4	Documentation
	25-06-2026	5	Project Submission
	26-06-2026	6	Internship Completion

Overview:

The final week focused on testing, debugging, documentation, and final submission of the Personal Finance Dashboard project. The project features such as income and expense tracking, transaction management, balance calculation, and savings goals were reviewed and finalized.

Conclusion:

The internship concluded successfully, providing me with practical experience in Web Development and JavaScript. Developing the Personal Finance Dashboard improved my coding, problem-solving, and project development skills and increased my confidence in working on real-world applications.

OVERALL OUTCOMES

The internship provided valuable practical exposure to Web Development and significantly enhanced my technical and professional skills. During the internship, I gained hands-on experience in HTML, CSS, and JavaScript, along with responsive web design, DOM manipulation, event handling, form handling, and interactive web development. I learned how to design structured web pages, apply CSS styling and layout techniques, and use JavaScript to create dynamic and user-friendly features. As part of the internship, I developed the **Smart Health Dashboard**, which helps users monitor their daily wellness activities such as step count, water intake, sleep habits, health score, and healthy food recommendations. Developing this project improved my programming, logical thinking, problem-solving, user interface design, and project development abilities. I also gained experience in organizing project files, testing features, identifying and fixing errors, and improving the overall usability of the application. The internship strengthened my communication, teamwork, time management, documentation, and project execution skills. Overall, the experience increased my confidence in applying web development concepts to real-world applications and prepared me for future opportunities in web development and software development.
